

Overview of PH-Japan (People's Hope Japan)

First certified NPO by Japan Tax Agency

April 2021

- 1997.1** Project HOPE Japan, a volunteer organization, was established as a Japan Branch of US NGO Project HOPE. Founders: Yokogawa Electric Corp., Hewlett-Packard Japan Ltd. and GE Healthcare Japan Co., Ltd.
- 1999.8** Certified as a Non-Profit Organization by the Economic Planning Bureau of the Japanese Government
- 2001.12** Certified by the Japan Tax Agency as the Certified NPO (since 2014 certifying organization is Tokyo Municipal Government.)
- 2006.4** Reorganized as PH-Japan (People's Hope Japan) independent from Project HOPE
- 2017.1** Celebrated the 20th anniversary of establishment

In 1958, Dr. William B. Walsh requested the President Aisenhower to dispose a Navy hospital ship for his project. After remodeling it, Dr. Walsh started to extend medical and health care support to the South Pacific countries. Thus the Project HOPE was born.

■ Mission

In order to help the people in Asia to empower themselves in health care, PH-Japan extends following health and medical educational support, as well as medical and health support in disaster relief.

Presently, PHJ is implementing maternal and child health improvement projects in Cambodia and Myanmar, where the infant mortality rate, under 5 mortality rate and maternal mortality rate are poor.

Health Conditions in Southeast Asia

	Japan	Cambodia	Myanmar
Infant mortality rate (per 1,000 births)	2	24	37
Under 5 mortality rate (per 1,000 births)	2	28	46
Maternal mortality rate (per 100,000 births)	6	160	250
Delivery attended by skilled attendants (%)	100	89	60
Average life (years at birth)	84	70	67

PHJ shares with the world community the Sustainable Development Goals from 2016 to 2030 established at the United Nations meetings. PHJ projects in Cambodia and Myanmar are implemented to achieve the Goal 3 Good: health and well-being for all persons.

Also following goals are closely linked to the PHJ projects.

Goal 5: Gender equality

Goal 6: Clean water and sanitation

Goal 17: Partnerships for the goals

SUSTAINABLE DEVELOPMENT GOALS

17 GOALS TO TRANSFORM OUR WORLD

PHJ's Vision
Health and hope for all

Happiness to connect
with beneficiaries
and donors

Donors' **Happiness**
Happiness to bring
happiness to others

PHJ's Happy/Happy Concept
Bring happiness to others who enjoy healthy life leads
to happiness of oneself (mutual benefits)

2027: PHJ's 30th anniversary,

Connecting with other persons,
communicating with other persons lead to
creation of new values

2030: SDGs target year

Leaving no one
behind!

SUSTAINABLE DEVELOPMENT GOALS

世界を変えるための17の目標

- ① **Dedicated to maternal and child health**
 - In order to help the people in South East Asia to empower themselves in health care, PH-Japan extends educational support in health and medical services.
- ② **Certified NPO (The first certified NPO by Japan Tax Agency)**
 - Donors enjoy tax exemption benefits
- ③ **Efficient operation with low administrative costs**
 - Energetic and committed staffs are conducting local operations
 - Experienced business people at the head office back up local operations
 - More than 80% income is spent for local operations

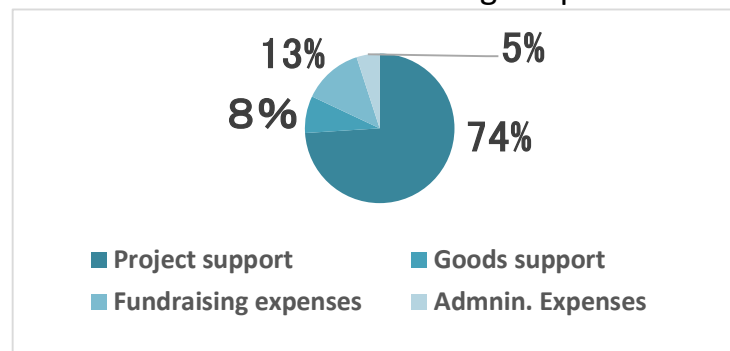

To meet donors' wishes, PH-Japan allocates donations to local operations at maximum

PHJ donated masks and alcohol jells to Lewe Township Health Department (May 2020)

■ January 2019: Support to launch Psychosomatic Counselling Room at Minami Soma, Fukushima

Support to Minami Soma: suffering from both East Japan Earthquake/Tsunami disaster and Fukushima Nuclear Power Plant Accident, the reconstruction in Fukushima Prefecture is not proceeding as planned. The disaster related death rate of Fukushima announced by the Reconstruction Agency is the highest among the three prefectures.

Within Fukushima, the death rate of Minami Soma is the worst. PHJ recognized this grave situation and decided to extend support to mental health care of the people of the Minami Soma, by launching a psychosomatic counselling room, in cooperation with Dr. Arinobu Hori, Director of Hori Mental Clinic.

PHJ and Medical Incorporated [Musubino-kai] concluded a Memorandum of Understanding to launch a counselling room where a clinical psychologist extends counselling service.

*Psychosomatic Counselling: a clinical psychologist extends 50 minutes of listening, understanding, accepting, and sympathizing service to reduce a patient's mental and psychological stress. The psychologist further helps the patient to find a solution by understanding what he/she wishes to do and how to achieve it. (Clinical psychologist is a private qualification. In 2018 Certified Psychologist System started as a national qualification.)

This program was implemented steadily, and in the latter half of 2019, the number of counselling sessions increased by 1.5 times of the initial plan of maximum 72 sessions in three months. However, in April 2020 the Japanese Government announced the COVID19 related emergency declaration. The psychosomatic counselling was suspended in April and May. In June the Musubi-no-kai resumed the program by extending remote counselling.

However, Dr. Hori explained that his plan to establish a new NGO became pending by the supporters. In July 2020, PHJ and the Musubi-no-Kai concluded a new Memorandum of Understanding as explained on the next page.
